Absence Declaration:

Danfoss hereby confirms that substances regulated by the EU-Directives

2002/95/EC (RoHS)
2002/96/EC (WEEE)

Lead, mercury, cadmium, hexavalent chromium, PBB & PBDE ¹⁾

are not deliberately used above the limits specified in the directives in the following products produced ²⁾ from 1st of May 2006:

EV210A, EV213A, EV310A, EV319A, EV220A, EV240A, EV260A, EV210B, EV212B, EV215B, EV310B, EV220B, EV222B, EV224B, EV225B, EV245B, EV250B, EV260B, EVI, EVSI, EV319F, HP220, AV210 (SS version), HP230, AVTA, FJVA, VV213B, VV243B, accessories, spare parts and coil ranges type A & B.

Lead is present in concentrations above the maximum limit in some FKM-rubber compounds, but will be removed as soon as a reliable substitute is found.

Since Danfoss Industrial & Appliance Controls is a supplier of components, our products are not directly included in the directives, but the products listed above can be used direct in equipment covered by the directives with the limitations.

¹⁾ Since the presence of the substances restricted by these directives can not reasonably be expected, the absence of the dangerous substances has not been checked by tests, but by certificates from suppliers and by their specifications.

²⁾ Date stamp on product confirms production week and production year

Kolding 2006-02-22

Place and date of issue

Søren Brun Jensen, Director of Operations
